

Is Princess Your Perfect Cruise?

Discover the destinations. Find your vacation style.

Who might love Princess?

Couples, active seniors, families with teens and tweens, and families traveling with several generations. Enjoy a balance of relaxation, lively experiences, good food and destination discovery.

Where can Princess take you?

Explore Alaska, Europe, the Caribbean, the Panama Canal, Hawaii, Japan and beyond. Alaska cruisetours combine cruising with inland experiences such as lodges, rail travel and Denali. In Europe, think local cuisine, historic landmarks, art and dramatic scenery.

What can you enjoy onboard?

Dining rooms and casual bites, live music, Broadway-style productions, Movies Under the Stars and Love Boat-themed fun. Specialty restaurants and immersive dining offer more choices. Spa treatments and adult retreat areas provide ways to unwind. Experiences vary by ship; some cost extra.

What makes the Medallion experience special?

A small wearable device helps unlock your cabin as you approach and makes onboard purchases easier. Together with the Princess app, it supports ship navigation, finding travel companions and ordering food and drinks to supported locations. Service charges and package coverage may apply.

Would a package or premium stay suit you?

Princess Plus and Premier bundle extras such as drinks, Wi-Fi, crew appreciation and dining benefits. Ask us to compare them with your expected spending. Ask about Sanctuary Collection accommodations on Sun and Star Princess for travelers seeking a more exclusive experience.
